

Project #3: Tutorial

Skill Level: Grade 12

Time Needed: a week, due on Wednesday 13 of April

This project is a “Tutorial” in the style of the one on Youtube. A **tutorial** is a method of transferring knowledge and may be used as a part of a learning process. It seeks to teach by example and supply the information to complete a certain task.

Much like the one on Youtube, you will be presenting a tutorial on your own about food and recipe. You will have to introduce yourself in a delightful and pleasant way, as well as what you are going to teach your viewers in the tutorial. You will have to try to make it interactive and interesting while teaching something useful. Finally you will have to find an appealing title for your video (to make people want to watch it) and have a catch phrase to end the tutorial with (to make the viewers want to come back).

Presentation: You will create your tutorial in Spanish. You will present yourself and then carry on to explain/teach what ever recipe you have chosen to teach. Your video will have a be minimum of 2mns.
